

REXEL TO PRESENT ITS OFFER AT THE RENEWABLE ENERGY CONVENTION FROM JUNE 16 TO 18, 2010 IN PARIS

Rexel, a global leader in the distribution of electrical supplies, will be present at the Renewable Energy Convention held from June 16 to 18, 2010 in Paris and will display its range of products designed for energy efficiency and new energies.

At this important gathering for all renewable energy players, Rexel France, a subsidiary of Rexel Groupe, and its partner suppliers will occupy a 5000 m² interactive display area divided into three sectors: residential, industrial and services.

In its "active energy efficiency home" Rexel will display products for the residential market ranging from security and communications technology to renewable energies and solar powered water heating, automation, electrical appliances and video, as well as lighting. In its "eco-efficient building", Rexel will present innovations in network and IT infrastructure, as well as in security and communications for the services sector. In the electricity production area, Rexel will present the "Turbolienne Eléna," a major innovation in wind power, capable of producing twice as much power as a regular wind turbine and aimed at company and residential usage. Finally, in its industry space, Rexel France will present solutions contributing to reducing energy costs.

Active Energy Efficiency Home

Eco-efficient Building

In a global and fast-growing market of renewable energy, Rexel is seeking to accelerate the deployment of energy solutions in buildings, while providing advice on energy efficiency and green energy. As a distributor of turnkey energy-efficiency solutions, Rexel offers its professional electrician clients a wide and complete range of products and services, covering all their energy efficiency needs.

By focusing its efforts on energy efficiency and renewable energy, and by providing value-added services on large projects, Rexel is seeking to generate additional revenues of EUR 400 million by 2012.

Rexel, a global leader in the distribution of electrical supplies, serves three main end markets: industrial, commercial and residential. The Group operates in 34 countries, with a network of some 2,200 branches, and employs 28,000 people. Rexel's sales were €11.3 billion in 2009. Its majority shareholders are an investor group led by Clayton, Dubilier & Rice, Eurazeo and BAML Capital Partners.

Rexel is listed on the Eurolist market of Euronext Paris (compartment A, ticker RXL, ISIN code FR0010451203). It is integrated in the following indices: NEXT 150, SBF 120, and CAC Mid 100.
