Our business

A multi-specialist & multi-channel partner

Expertise at the heart of the value chain

Rexel supports its residential, commercial and industrial customers by providing a tailored and scalable range of products and services in energy management for construction, renovation, production and maintenance.

Creating value through 3 business approaches in 3 end-markets

% of Rexel sales in 2016

CUSTOMER PROXIMITY // Being close to installers

Rexel simplifies the work of installers by providing a multi-channel offering, assistance for the whole business process, and customized training programs.

over **2,000**

branches offering a comprehensive service (recommendation, advice and training)

over **16,000**

sales representatives including **8,000** outside sales reps

4,000 products permanently available at each branch

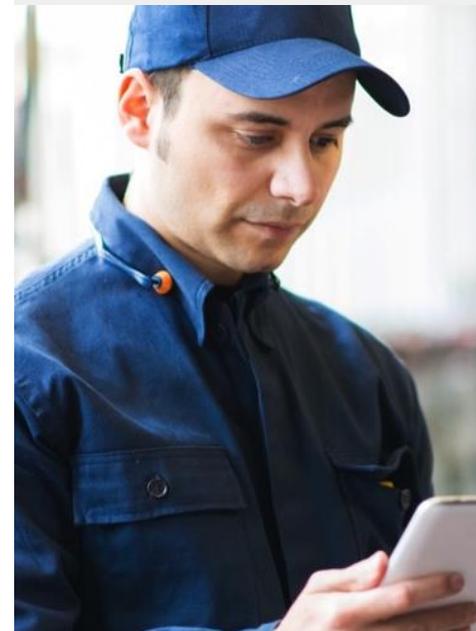

Technical advice

Order picking made simple

Order picking suited to each type of customer

In Finland, 100% of branches operate 24/7

The Esabora software suite

enables installers to conduct energy pre-audits on site followed by the best recommendations and business proposals for customers.

a world of energy

PROJECTS // Managing complexity and optimizing the supply chain

Efficiently supplied, our customers also have access to innovative supply chain solutions, reducing costs by improving productivity.

Supply chain services ensuring quick nonstop delivery

On-site management of supply and inventories

Compliance with all quality and safety standards

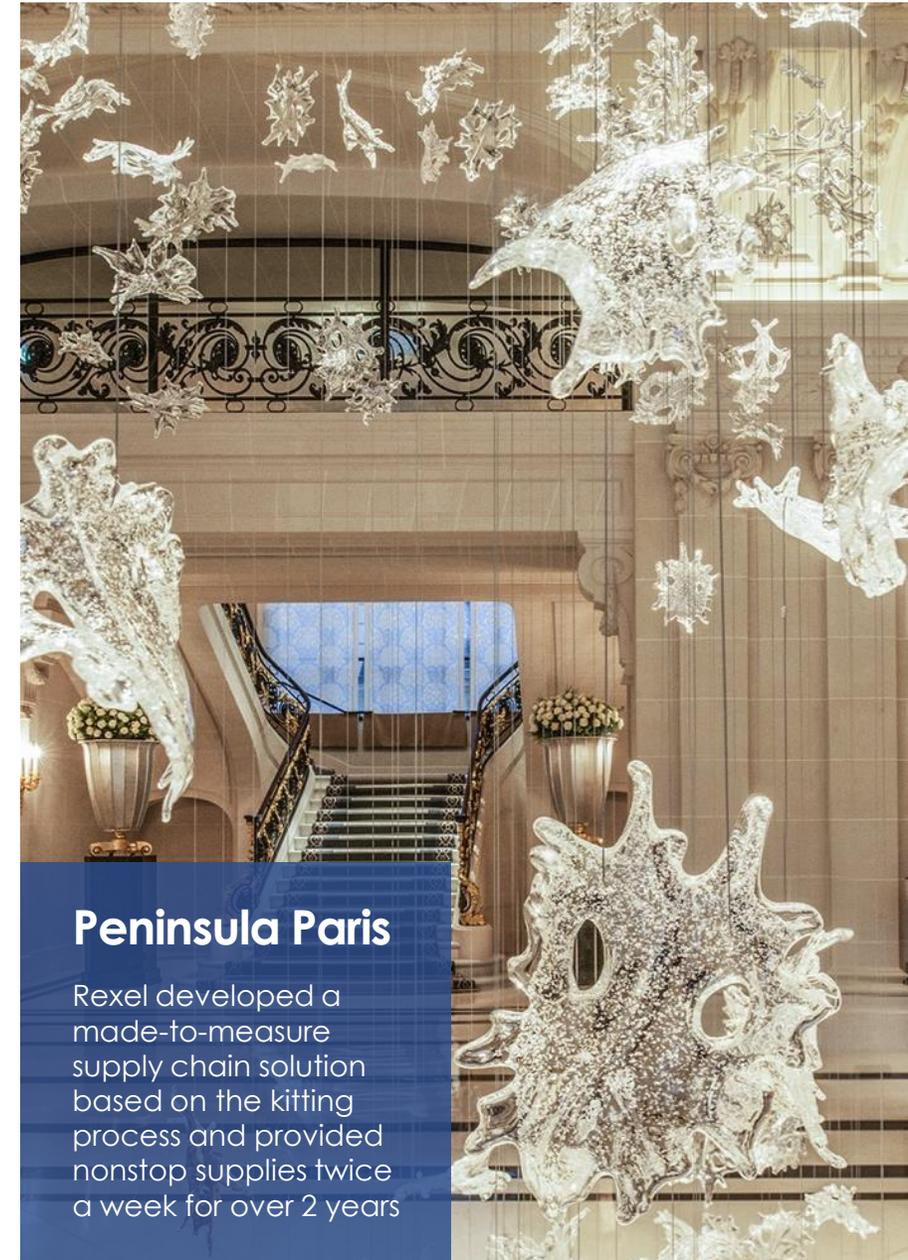

Dynamic management of the product offering to meet the most specific needs

Optimized budget proposals, multi-lot management of tendering

Tailored made solutions (branches set-up on worksite, electrical products kitting)

REXEL

a world of energy

Peninsula Paris

Rexel developed a made-to-measure supply chain solution based on the kitting process and provided nonstop supplies twice a week for over 2 years

SPECIALTY // Developing expert know-how in specialized markets

Specialized resources, expert skills and innovative solutions adapted to the specific needs of each industry:

/OEMs (Original Equipment Manufacturers)

/Data Centers

/Agri-food, automotive, petrochemicals and mining industries

/Retail, hospitality, hospitals...

- Conducting of studies ahead of each project by our specialized teams
- Extended product/brand offering
- Site MTO (Material Take-Off) management
- Setting up of testing centers
- TCO (Total Cost of Ownership) optimization
- Specific digital monitoring solutions for the supply chain
- Capacity to offer cross-sale offerings or upgrades

REXEL

a world of energy

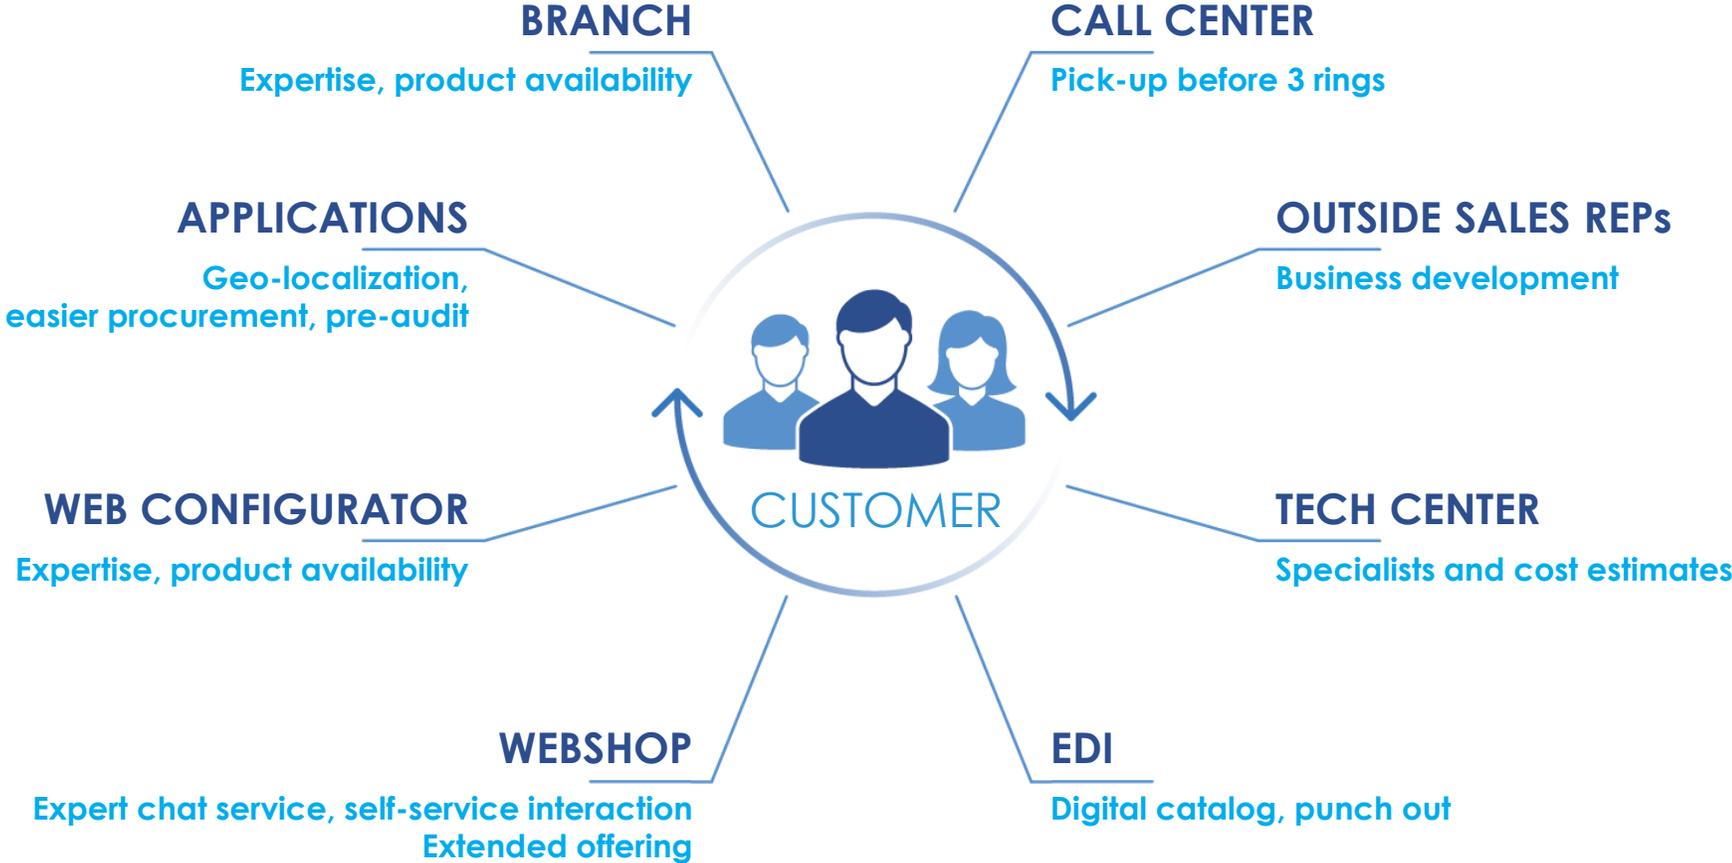

Capitol Light delivers expertise in the optimization of energy for lighting supplied to store chains, hotels, restaurants...

Maximizing customer contacts with a multi-channel approach

The Rexel product offering is available anywhere, at any time, through multiple contact points.

Optimal service quality thanks to a powerful supply chain

Rexel provides large-scale inventory management, product supply from the leading manufacturers of electrical equipment, customized tools and a reliable supply chain.

- 108 logistic centers worldwide
- Performance and reliability of supply chain solutions and information systems to serve our customers
- Permanent availability of 4,000 products at branches
- 50,000 products available with next-day delivery

500,000
Orders processed daily

99.8% Rate of next-day order processing in Norway (2016)

over 50%
Group procurement with the 25 top suppliers

Innovating and growing through digital technology

In 2016, Rexel recorded €2 billion e-commerce sales (webshops and EDI)

A STRONGER E-COMMERCE PLATFORM

Common platform (updates and upgrades for 11 countries simultaneously)

Enhanced content management

Optimized payment solutions

INNOVATIVE APPLICATIONS

Developed to meet customer needs

Tailored to each market

In the United States, Rexel offers an application to make orders without delay: in a few seconds, using a photo taken at the worksite, an installer can access a product's full details and check its price and availability in a database containing over 100,000 products

Quickpix helps installers to automate orders from their working sites

POWERFUL CRM TOOLS

Specific knowledge of each customer and related life-cycle

Detailed analysis of data for loyalty operations

EDI

Direct access to Rexel services

Sales

Three strategic priorities

1 Accelerate organic growth: *More customers X More SKUs*

Priorities per business approach:

Proximity

(60% of total sales)

Expanded footprint through new branches/counters opening, accelerated multi-channel approach and constant improvement in service standards.

Projects

(25% of total sales)

Industrialization of the product offering designed for customers managing industrial or commercial projects.

Specialty

(15% of total sales)

Improved capacity to meet specific requirements for specialized markets.

2 Increase selectivity in capital allocation and strengthen financial structure

3 Improve operational and financial performance

Our commitments

for a better energy future

a world of energy

Our sustainable development approach

Developing energy management solutions for our customers and for society at large

2020 commitments

2x

increase, at least, of energy solutions sales (compared to 2011)

→ **100%**

of our employees made aware of Rexel's sustainable development commitments

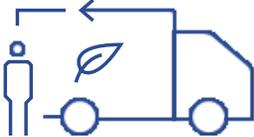

Fostering sustainability in our value chain

80%

minimum volume of direct purchases using CSR criteria

Improving the social and environmental performance of our operations

30%

reduction, at least, of our operations' carbon footprints (compared to 2010)

Tangible commitments and acknowledged performance

COMMITMENTS

UN Global Compact (since 2011)

United Nations
Global Compact

people positively impacted

a world of energy

The Rexel Foundation for a better energy future

5
lines
of action

FACILITATING

access to affordable, efficient
and sustainable energy

SUPPORTING

the fight against fuel poverty

DEVELOPING

renewable energies and their funding

ENCOURAGING

the acceleration of energy retrofiting

INFORMING AND EDUCATING

the general public about energy transition

4
types
of project

Community projects are promoted by associations and NGOs that encourage the involvement of the most underprivileged communities in managing their energy consumption and improving their living conditions.

Social innovation projects are driven by social entrepreneurs who develop new economic models that have a social impact.

Knowledge and learning projects include projects co-created by energy efficiency researchers and experts to be shared with the general public.

Employee projects are initiatives sponsored by the Group's employees.

Thank you
